Certificate

Response 7.3:

The college is committed to creating a clean, green, and pollution-free environment, showcasing its unique dedication to providing a healthy atmosphere across the campus and enhancing the learning experience for students. The college is renowned for its ongoing efforts to maintain a distinctive, lush green campus. There are countless trees and plants, including a few Janti trees. The campus also features medicinal plants such as Tulsi, Neem, and Aloe Vera, along with other species like Pilkhan, Peepal, Bargad, and Neem, contributing to a vibrant and lively atmosphere.

The college regularly organizes tree plantation drives, introducing a wide variety of trees to keep the campus green. Additionally, NSS camps are focused on cleaning the campus and fostering a healthy, natural environment.
